EDUCATION

University of Cincinnati | *Cincinnati, Ohio* — Expected Graduation: May 2028
Bachelor of Science in Mechanical Engineering — Major GPA: 3.98 | Cumulative GPA: 3.93

- Tau Beta Pi Engineering Honor Society, First-Generation College Student, Dean's List (5/5)

WORK EXPERIENCE

Design Engineering Co-op | *Honda Development and Manufacturing, Marysville, OH* — Aug 2026-Present

- Designing a functional, 3D-printed injection molding die assembly to standardize onboarding and tooling training
- Validating and refining expanding cooling channel plugs to remediate thermal fatigue in production tooling

Production Engineering Co-op | *Honda Development and Manufacturing, Anna, OH* — Jan 2026-Apr 2026

- Developed a Keyence-based DAQ test bench to streamline die trial data collection, integrating 14 sensor modules and 60+ inputs for strain, temperature, and flow
- Executed 3D scanning and modeling for equipment redesign, preventing ~1,200 minutes of production downtime
- Supported daily departmental workflows and created documentation for 3D scanning and FARO operation

Engineering Co-op | *Denso Manufacturing Tennessee, Inc., Maryville, TN* — May 2025-Aug 2025

- Designed and deployed a Management Review tool to streamline KPI data input, reviews, and action item tracking, introducing ~$21,000 annual savings per plant with potential for North America-wide rollout
- Led cross-functional meetings, coordinated feedback, and delivered weekly updates to team members
- Developed and refined existing PowerApps tools used across North America to improve functionality

Quality Engineering Co-op | *Denso Manufacturing Tennessee, Inc., Maryville, TN* — Sep 2024-Dec 2024

- Designed and implemented a skills assessment database using Microsoft PowerApps to introduce annual labor cost savings of $5,000 to $7,000 per plant by optimizing skill tracking and assessment processes
- Conducted root cause analysis and testing on warranty claims using X-ray imaging and diagnostics
- Collaborated with cross-functional teams to analyze critical defects, sort inventory, and implement containment solutions, minimizing downtime and ensuring compliance with quality standards

Manufacturing Associate | *Honda Development and Manufacturing, East Liberty, OH* — May 2024-Aug 2024

- Executed six sanding processes on 450+ vehicle bodies daily, eliminating defects on customer products
- Met or exceeded production targets while upholding strict process standards and requirements
- Collaborated with 13+ team members to maintain production efficiency and meet daily targets

PROJECTS

Three-Wheeled Utility Vehicle Drivetrain | *University of Cincinnati* — Jul 2026-Aug 2026

- Group lead for a five-person team tasked with designing and validating a three-wheeled utility vehicle and drivetrain engineered to meet performance specifications in factory/manufacturing environments
- Created drivetrain layout and calculated power requirements, reduction ratios, safety factors, and torque distributions for power transmission from a 12-horsepower engine
- Coordinated a 47-page design report detailing drivetrain and component sizing, validation, and feasibility

EXTRACURRICULAR ACTIVITIES

UC College of Engineering and Applied Science Tribunal | *University of Cincinnati* — Aug 2023-Present

- Member of an organization that acts as a liaison between administration of the College of Engineering and Applied Science by representing student voice concerning policies and curriculum

Queen City Racing | *University of Cincinnati* — Oct 2025-Present

- Member of a new motorsports team competing in the Collegiate Race Series (CRS)

Honda of America Racing Team (HART) | *Honda Development and Manufacturing* — Mar 2026-Apr 2026

- Collaborated as part of the drag racing sub-team within the associate-led racing organization representing Honda

SKILLS

Software & CAD:
Siemens NX
CATIA V5
Autodesk Fusion
Arduino IDE, Visual Studio Code
PolyWorks
Finite Element Analysis (FEA)
MATLAB, Python, LabVIEW, VBA
Microsoft Power Apps/Automate

Technical:
Additive Manufacturing (FDM/FFF)
3D Scanning (FARO)
Microcontrollers and Development Boards
Soldering, Desoldering, and Wiring
Root Cause Analysis

Hands-on & Mechanical:
Prototyping & Mechanical Assembly
Automotive Maintenance & Repair
Hand & Power Tools
Basic Machine Shop Tools
Computer Assembly
